**KOCH PARTNERS, LP TO BUILD HYDROTREATER
FOR NAVAJO REFINING COMPANY**
\$14 million project to aid Navajo in meeting clean fuel goals

TYLER, Texas – Koch Partners, LP will design and build a 15,000 bpsd gas oil hydrotreater at Navajo Refining Company, L.P.'s Artesia, N.M. refinery. The \$14 million project, to be executed through a lump-sum, turnkey engineering, procurement and construction (EPC) contract, is expected to be completed in spring 2006.

Koch Partners, a subsidiary of Koch Chemical Technology Group Inc., will provide process design, detailed engineering, project management, procurement, fabrication and field construction for Navajo, a subsidiary of Holly Corporation.

When complete, the new hydrotreater will offer Navajo operating flexibility for distillate production while balancing performance and cost objectives. The project is also a key component of the company's overall strategy for clean fuels.

Koch Partners, LP, based in Tyler, Texas, provides value-based, EPC solutions to the hydrocarbon processing industry. Koch Partners combines technical expertise, productivity, experience and an integrated engineering and project management approach to deliver cost-effective projects to niche markets such as domestic refiners and independent energy companies. Koch Partners provides a full range of EPC services and specializes in fixed-price contracting.
